activity_main.xml

```xml
<?xml version="1.0" encoding="utf-8">

< android x. constraintlayout. widget. ConstraintLayout
        :
            android : layout_width = "match_parent"
            android : layout_height = "match_parent"
            tools : context = ".MainActivity">

    < TextView
            android : layout_width = "wrap_content"
            android : layout_height = "wrap_content"
            android : text = " Welcome to graphicEra University MCA "
        :
    />   :

</android x . constraintlayout. widget . Constraint layout >
```

MainActivity.java

```java
package com.example.practical;
    import // all the necessary classes

public class MainActivity extends AppCompatActivity {
        @Override
        protected void onCreate (Bundle savedInst ) {
            super. onCreate (savedinst);
            setContentView (R. layout. activitymain);

            ~~AppCompat actor~~

        }

}
```
